

Kiriri Tatami (Order made)

Tatami facing

Tatami mat material

Purchase via Email

Our original high quality tatami mat "Kiriri" uses material carefully selected according to consistent standards and that uses good quality tatami facing made in Kumamoto prefecture. Among its characteristics are that it has a clear crease line and that the tatami fold features a round bulge.

The tatami mat is thick, has a good texture and feel against the foot, and is made with a sturdy and beautiful finish.

Tatami mats made from natural material allow you to enjoy their gradual change in color from green to golden yellow as they age over time.

Tatami mats born in Japan and inseparable from Japanese culture.

Traditional culture such as temples and shrines, tea ceremony and flower arranging coexist alongside one another. Please enjoy "the Japanese spirit" in "a space with a tatami mat."

Border type

Unit Japanese paper tatami (laying type tatami mat)

A "laying type" tatami that uses a tatami mat spun from Japanese paper and that is simply laid down on the floor. Enjoy freely arranging an interior with a simplicity similar to laying a rug.

Japanese paper is processed on paper strings and coated with resin.

Japanese paper is woven together in a pipe shape to give the tatami mat its finishing.

There is also a rich range of variation produced through colors and weaving methods.
