

# Washable Silk *CEREZACARMEN*

SANMO

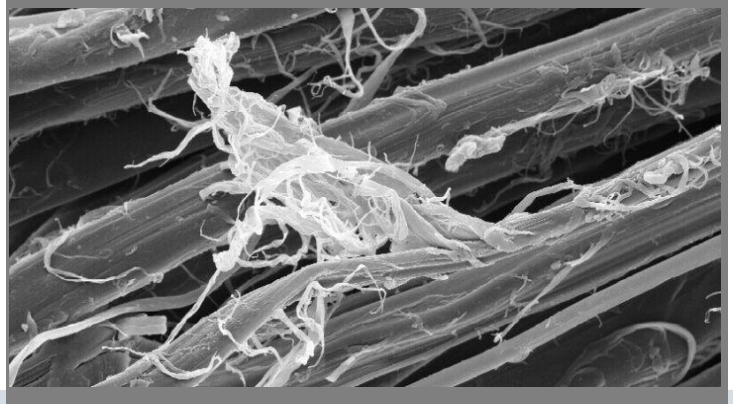

## Surface of silk fiber after machine washing 30 times (Electron microscope photograph x 1000)

Washable Silk *CEREZACARMEN*

Unprocessed Silk (damages on fibroin)

The first machine washable silk in the world, "*CEREZACARMEN*", maintains the characteristics of silk after machine-washing many times although general silk gets hard, shrinks and looks color-fading caused by fibrillation when machine-washing.

## Machine Washable Silk is SDGs material patented in Japan and EU.

Applicable fabrics: Stretch Satin, Satin, Twill, Chiffon, Crepe de Chine etc.

Width: 112cm-160cm

Weight: 14 Momme, 16 Momme, 20 Momme, 22 Momme

\* 1Momme=3.75g
