Eye power® does not cure myopia.

MHLW Approval № 21500BZZ00316000

Price:JPY88000.(tax-excluded)

Only four size AA batteries for power.

Actions and indications

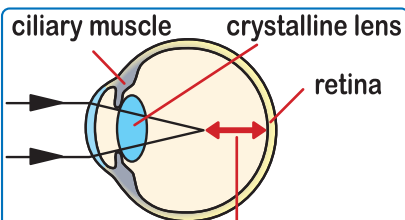

Eye power® researched and developed by ophthalmologists micro-massages your eyes with its supersonic energy.

During treatment, it releases the stiff ciliary muscle, regains elasticity, improves the blood circulation, so that your decreased eyesight can be recovered.

Good and effective for everyone !

If you have eyestrain, decreased eyesight, or use PC or Smartphones continuously long term, Eye power® helps all of you, any age and any occasions.

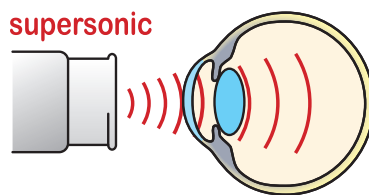

Decreased eyesight

Focus is not put on retina.

Focus matches in front of retina because of the stiff ciliary muscle.

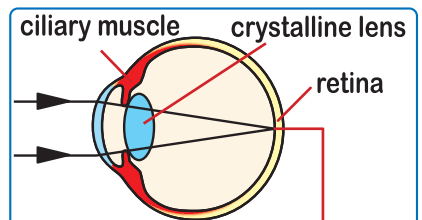

Use Eye power®

Eye power® is effective for :

- (1) releasing stiff ciliary muscle
- (2) improving blood circulation

Improved state

Focus is put on retina.

Focus matches on retina because of the released ciliary muscle.

Eye power® effectively release the stiff ciliary muscle with its supersonic.
