

Introducing Customised Conveyor !!

Do not worry if you can not find a conveyor that meets your specifications!
 NKE can create various customised solutions with our deep expertise and proven track record.
 Please contact us for a consultation session like "Can you do this?"

Belt

We can provide various customised and special use cases: Profiles and cleats can be added to conveyor belt transport surface for inclined or pitch transfer. And perforated belt that is ideal for preventing sticking between item and belt, or for reducing friction between backing plate and belt.

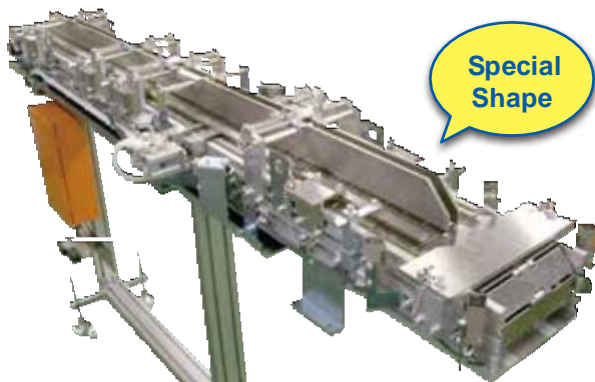

Cleat

Punched Hole

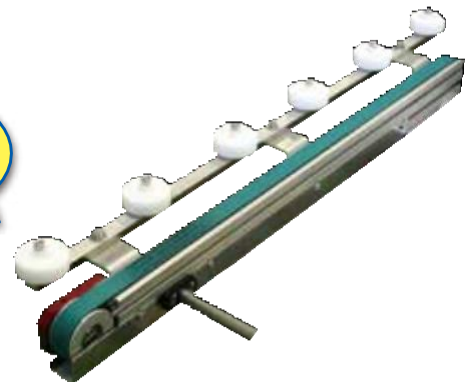

Guide

Can support specifications such as stainless steel or resin materials and adjust width and height as your request.

Special Shape

Roller Guide

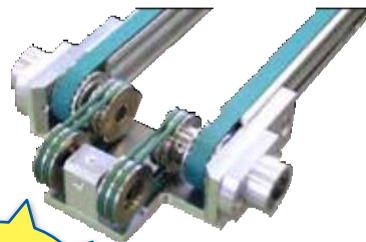

Transfer

Can incorporate knife-edge shape and transfer roller for smooth transfer.

Knife-Edge Shape

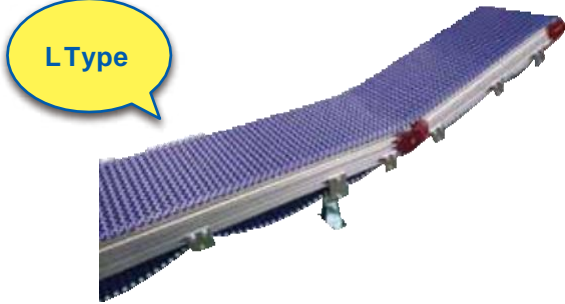

Transfer Roller

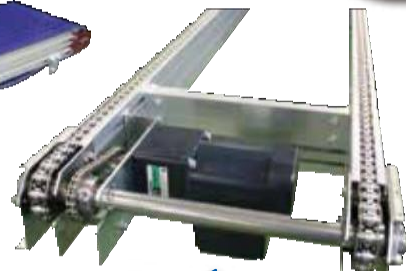

Inclined Transfer

Transfer smoothly by making the sloping and horizontal part to be integrated. In addition, can cut costs with that the sloping and horizontal part are integrated into 1 unit.

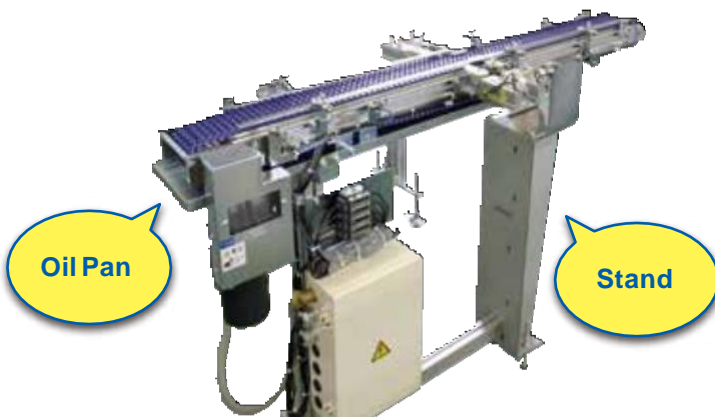

Motor Installing Position

We can adjust the motor position depending on the installing location and surrounding environment.

Stand, Oil Pan, Drip-Proof Cover

We can attach a stand with the desired height and shape from aluminum. Please contact us to discuss the installation of an Oil Pan, etc.
