京都府 京都市上京区 油小路通中立売下る甲斐守町 1 1 0 番地

¥5,000,000 (capital 資本金) 1-50 (employees 従業員数)

Area of Interest

North America, Europe, Africa, China

北米, 欧州, アフリカ, 中国

PR

Since our company was founded, we have gained the trust of many customers through our primary business of landscaping and on-site construction work such as interior finishing, as well as sales of Kyo Meichiku bamboo, various bamboo materials, tea room materials, Yokotake boards (veneer, wickerwork), round windows, and sudare screens. Recently, as we have acquired fire retardant and SIAA certifications and continue to refine our unique processing technology, the number of overseas projects has increased year after year. We

would like to use the technology and experience we have cultivated in Kyoto to promote the appeal of bamboo internationally and expand our business.

弊社は創業以来、造園工事や内装仕上げなどの現場施工を柱とし、京銘竹や各種竹材、茶室材、ヨコタケボード(ベニヤ、アジロ)、丸窓、すだれなどの販売を通して多くの方から信頼を得てきました。最近では、防災やSIAA認定を取得し、独自の加工技術を磨いている中で、海外からの案件も年々増加しており、京都で培ってきた技術・経験を活かし、竹の魅力をもっと海外にアピールして事業規模の拡大を目指したいと思っています。

Product technology

We handle Kyo Meichiku bamboo (white bamboo, sesame bamboo, square bamboo, and tortoise shell bamboo) as well as other bamboo materials produced in Kyoto, and we also provide flat split or half-split bamboo, as well as mold-proof, insect-proof, and fire-proof processing to meet customer needs. Because of our strength in both construction and processing technologies, we have experience going directly to overseas construction sites, and we send bamboo materials and other products internationally on a daily basis.

白竹や胡麻竹・図面角竹・亀甲竹と言った「京銘竹」と呼ばれる京都産の竹はもちろん、その他の竹材も取り扱っており、お客様の要望に合わせて平割や半割、防カビ・防虫・防災といった加工を行っています。施工だけではなく、加工技術も弊社の強みであることから、過去に海外の現場に直接行って施工した経験もあり、日々、竹材やその他の商品を海外に送っています。
