Area of Interest

PR

We specialize in the production of browser games (games that run on a website) by applying website development technology. In particular, we have taken many board games and card games that are used for in-person training and converted them to online games. By converting them to online games, we are able to support multiple languages, record and store the data, and implement complex rules. Our services have been well received by training companies that develop and use offline training materials, as well as by companies that want to distribute educational materials online.

Webサイト制作技術を応用したブラウザゲーム（Webサイト上で動作するゲーム）の制作を得意としています。特に、対面研修用のボードゲームやカードゲームのオンライン化の納品実績が多数ございます。オンライン化により、多言語対応やデータ記録、複雑なルールへの対応も可能です。オフライン向けの教材を開発・利用中の研修会社様はもちろん、啓発用教材をオンライン発信したい企業様にも大変ご好評いただいています。
