PR

The company name “Hapquitous” is a combination of the words “haptics” and “ubiquitous.” “Haptics” because I want to expand into the realm of touch, sensitivity, and the senses, areas that I have been involved in developing for over 30 years. “Ubiquitous” because the word expresses widespread distribution. I named the company Hapkitas in the hope that it would shine a light on people everywhere and deliver products needed by the elderly, the disabled, women and children, people who are considered the most vulnerable in society. We deliver products to people in need in the medical, rehabilitation, sensibility and sensory fields.

社名のハプキタスは、hapticsとubiquitousから成っています。hapticsは、私が30年以上開発にかかわってきた触覚・感性・感覚の領域に展開をしたいと考えています。ubiquitousは、偏在を表す言葉で、あまねく人に光が当たる、社会弱者と言われる高齢者、障害者、女性、子供に必要な製品を届けたいという思いで、ハプキタスと名付けました。医療・リハビリ・感性・感覚領域で必要な人々届けます
